Holly,

Please see the attached document entitled "OCFO_May 2018 Hearing TPs_Draft (V1)" which includes the requested and concise talking points on Fairbanks, residential wood heaters, RVOs, small remote incinerators, May 9 NAAQS Memo, and the EPA/NIH side-by-side.

Although you likely will not need as these are a bit more in the weeds, for reference I've also included:

- RFS TPs - the doc I previously sent you with info on several RFS issues
- Fairbanks PM Nonattainment Area – more extensive background on the topic
- HEC Special OAR TPs – more extensive background on NAAQS memo, April 30 science transparency proposed rule, and PM2.5 health effects
- Small Remote Incinerators – more extensive background on the issue

Please let us know if you need anything else.

Thanks,
Alex

Hi Alex,

In hearing prep, a side by side of NIH vs. EPA's proposed rule was requested during our discussion of the NAAQs memo. I don't think I see this in this document. If it's there, please point me to it.

The other items I requested were updates on "new" topics since the House hearing – wood heaters, small remote incinerators, and Fairbanks. Do you have a few points on those?

Thanks,
Holly

Paige – See attached for talkers on various RFS issues. Those specifically regarding the Renewable Volume Obligations are at the bottom of the second page. Feel free to give me a call if you have questions on anything.

Alex,

Happy Friday! I heard from Mandy y'all are sending something up to OMB today. In light of that, are these still appropriate talking points for the Administrator in his hearing next week?

Thanks,
Paige
